

ETR Program Usage Agreement

The following is an ETR Program Usage Agreement between ETR (Publisher)

and _____ (Potential Grantee) whereby ETR is allowing the Potential Grantee permission to purchase and use the following ETR copyrighted material:
_____ (Program) if funded as a grantee under the Funding Opportunity No. AH-TP1-19-001 from the Office of Adolescent Health (OAH).

This permission allows the Potential Grantee to purchase the Program and adapt it to comply with the requirements specified in OAH's Funding Opportunity No. AH-TP1-19-001 related to the Teen Pregnancy Prevention Program. For resources and guidance on Program Adaptations, please see the page for the specific ETR Program(s) at:
www.etr.org/ebi/programs/all-programs.

Because significant red-level adaptations may change a program's original intent and effectiveness, a heavily adapted program should no longer be referenced as evidence-based (it may be evidence-informed depending on the adaptations made). Further, in these instances users should clearly reference the resulting program as "an adaptation of" Program.

The Program is the intellectual property of ETR. ETR owns all original and derivative (adapted/translated) rights to the Program. By signing this agreement, the Potential Grantee agrees that the Program will not be disseminated beyond the scope of the defined area of the referenced Funding Opportunity Announcements or commercialized in any way.
