

Prioritize What to Sustain

Use this chart to identify project components and how critical they are to the sustainability of the program.

Project Components	Maintain within Your Organization	Transfer to Another Organization	Discontinue	Undetermined

Adapted from: Hutchinson, K. (n.d.). *Sustainability planning: Increasing the long-term viability of your programs*. Community Solutions Planning and Evaluation.

Identify Sustainability Strategies

Use the following worksheet to identify sustainability strategies for the project components identified as critical to sustain.

Project Components List essential project activities.	Resources List specific resources needed to continue.		Strategies List possible strategies for securing resources.

Adapted from: Hutchinson, K. (n.d.). *Sustainability planning: Increasing the long-term viability of your programs*. Community Solutions Planning and Evaluation.

Identify Sustainability Strategies

Use the following worksheet to develop an action plan for each sustainability strategy identified above.

Sustainability Strategy				
SMART Objective				
Action Steps	Barriers	Supports	Person Responsible	Timeline
